- Notes:
1. In a few instances, non-reporting or underreporting of some data makes for apparently inconsistent results, e.g. see total BB eggs vs hatched vs fledged. However, number of fledglings were always reported.
 2. One VBS member, John Hickerson, travels regularly in West Virginia and monitors trails in Inwood and Falling Waters Counties.
 3. Counting all species, 16,821 birds were fledged.
